INTRODUCTION

Our WordPress Maintenance Plans give you expert-level website support, an industry-leading hosting platform, best-in-class security, speed & performance optimization, and the largest feature set at the lowest cost guaranteed.

We'll keep your site secure and safe from attacks, optimized for performance and speed, provide expert-level support when you need us most, and do any edits or revisions whenever we can help out.

CORE PLAN FEATURES

- **High Performance WordPress Hosting** – Performance Optimized
- **Website Uptime Monitoring 24/7** – every 2 minutes (720 checks per day)
- **Mobile, Tablet, Laptop & Desktop Optimization** – updated as needed
- **Monthly Reporting** – security, update log, & performance scores
- **Speed & Performance Optimization** – 90%+ scores (GTMetrix & Google Desktop)
- **Site Design & Updates** – media and technical updates
- **Daily Website Backups** – immediate restore points
- **Advanced Security & Firewall** – hack-proof guarantee
- **Plugin and Theme Updates** – daily checks

Items above are performed on a daily basis, and often several times a day if needed. They make up the core of the managed WordPress Hosting, Maintenance, and website performance optimization to make sure that your website is always up-to-date has fast-loading pages, secure from bots and brute force attacks, and is always online and accessible for visitors on all devices.

UNLIMITED WEBSITE UPDATES

Website edits and revisions you need that we can complete in a 15 - to 30-minute timeframe. There is no limit on how many updates you request, and you can send us three tasks at a time. When those are completed and approved by you, you can send anything else you would like done.

Tracking and Script Integrations

Examples of integrations

The below integrations (install only) means we can add the preconfigured codes and scripts and place forms anywhere you like on-site. Still, the actual functionality that does not happen on the website is best handled by your AdWords, PPC or conversion optimization team if you have one.

- Google Analytics (install only)
- Google Search Console (install only)
- Google Tag Manager (install only)
- Google ad manager (install only)
- Hotjar, crazy egg and similar heat map installation (install only)
- Monster analytics (install only)
- AB testing tools (install only)
- HubSpot tracking Scripts (install only)
- Zoho CRM Scripts (install only)
- SharpSpring Scripts (install only)
- Pipedrive Forms (install only)

Our WordPress Maintenance Plans give you expert-level website support, an industry-leading hosting platform, best-in-class security, speed & performance optimization, and the largest feature set at the lowest cost guaranteed.

Our plans are month to month and if you don't find the value in our plans, you can cancel at any time.

If you have questions regarding any of the information above, please contact :
